**right bite Food and Drink Spectrum**

**GREEN choose plenty**  
Encourage and promote these foods and drinks. They:  
 • reflect the five food groups in the circle on the 'Australian Guide to Healthy Eating'  
 • are excellent sources of important nutrients  
 • are low in saturated fat and/or sugar and/or salt  
 • help to avoid an intake of excess energy (kilojoules or calories).

**AMBER select carefully**  
Do not let these foods and drinks dominate the choices and avoid large serving sizes. They:  
 • have some nutritional value  
 • contain moderate amounts of saturated fat and/or added sugar and/or salt (often added during processing)  
 • can, in large serve sizes, contribute excess energy (kilojoules or calories).

**RED occasionally**  
These foods and drinks are banned from sale in SA school canteens and preschools. Schools and preschools can provide some RED category products a maximum of twice a term on whole of school or preschool occasions. They:  
 • lack adequate nutritional value  
 • are high in saturated fat and/or sugar and/or salt  
 • can contribute excess energy (kilojoules or calories).

\*The Right Bite Food and Drink Spectrum is based on the 2013 Department of Health and the NSW Department of Education and Training Food and Drink Spectrum Planning Guide (2016).
